SKILLS SUMMARY

- **Languages:** Python, MySQL, C, C++, JavaScript, Solidity, Assembly
- **Blockchain & Web3:** Hardhat, Truffle, Remix, Bitcoin Scripting, Foundry
- **Tools/Platforms:** Ghidra, Radare2, gdb, IDA free, Burp Suite, Metasploit, Docker, AWS, Git/GitHub
- **Soft Skills:** Leadership, Persistent, Project Management, Analytical

PROJECTS

ByteTrace – Binary Analysis & Reverse Engineering Tool Feb 2026 - March 2026

- Developed a command-line binary analysis tool to generate Control Flow Graphs (CFG) for executable files using static analysis techniques
- Implemented modular components for binary parsing, instruction decoding, and graph generation, tracing instruction flow to visualize program execution paths.
- Strengthened skills in x86 assembly, reverse engineering, and low-level program analysis using Linux tools with structured development via GitHub version control.

Adaptive OS Scheduler for Real-Time Systems Feb 2025- Apr 2025

- Designed and implemented an adaptive scheduling algorithm to prioritize real-time tasks based on deadlines, execution time, and system load.
- Optimized CPU and memory usage to ensure predictable, low-latency task execution.
- Applied modular system design principles for efficient and scalable system architecture.

Browser Security Extension Oct 2024- Mar 2025

- Built real-time URL analysis to detect malicious and phishing websites, enhancing practical cybersecurity skills.
- Learned how to design lightweight, efficient browser extensions with seamless user experience.
- Gained hands-on experience in threat detection, security alerts, and safe browsing practices.

TRAINING

OOP Using C++ | *Lovely Professional University* Jun 2025- Jul 2025

- Built a strong foundation in Object-Oriented Programming by implementing real-world use cases with classes, objects, constructors, and encapsulation.
- Designed and developed a Shopping Cart Application with product catalog, multiple item addition, bill generation with discount calculation, and order saving via file handling.
- Gained practical experience in modular program design, class composition, arrays, and file I/O while improving problem-solving skills.

CERTIFICATIONS

- CompTIA Network+ | *CompTIA* Nov 2025
- QuickHeal DFIR | *QuickHeal* Since Aug 2025
- CompTIA Security+ | *CompTIA* Since Aug 2025

ACHIEVEMENTS

- Progressed through OpenZeppelin Ethernaut challenges, enhancing expertise in Ethereum security, smart contract vulnerabilities, and exploit prevention Jun 2025
- Completed the CryptoZombies Solidity course, gaining hands-on experience in building smart contracts, decentralized applications, and blockchain fundamentals Apr 2025

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering Since Aug 2023
- **Narayana Junior College** Kakinada, Andhra Pradesh
Intermediate – PCM Jul 2021 – Mar 2023
- **APSP EM high school** Kakinada, Andhra Pradesh
Secondary School Graduated 2021
